1. Prices are F.O.B. Valencia California
2. Prices are subject to change without notice.
3. Part numbers and prices not shown are quoted upon request.
4. See Customer Service Programs and Warranty for details of our policies and procedures.

**SUBJECT: DEFINITION, CUSTOMER SERVICE PROGRAMS**

**NORMAL OVERHAUL**

Normal Overhaul provides a completely overhauled unit. The work is accomplished in accordance with the latest manufacturers specifications and includes standard replacement parts, non-destructive testing, assembly, test, and labor. Modifications, service bulletins, and major parts beyond salvage are billed separately when required. Any charges beyond the normal overhaul cost will be advised prior to proceeding with required work. The above policy assures the lowest possible overall price for the operator.

**REPAIR**

Repair consists of minor overhaul to major components. The billing will be materials plus labor charges. Any charges beyond the repair cost will be advised prior to proceeding with required work.

**EXCHANGE UNITS**

All exchange units are re-manufactured to the latest manufacturers specifications, and are normally available for immediate delivery. In order to give the customer the best pricing, major component parts and modifications are not averaged into the exchange price. They are billed back after the core is received and evaluated. In this way the customer is not continually paying for modifications that have already been performed, or for parts that are not needed. All cores are accepted as exchange credit. The condition of the units will determine whether additional billing is required.

**NORMAL DELIVERY**

Units are evaluated and quoted within 5 to 7 days of receipt. Because ADS stocks a wide range of replacement parts, delivery is normally 7 to 10 days after price approval.

**SUBJECT: WARRANTY POLICY**

*Aero Distribution Services* offers a 100 % warranty on our workmanship and materials, based on the following schedule:

12 Months or 1,000hrs from tag certification.

Any unit having fewer than the above designated hours and less than twelve months elapsed time since overhaul may be forwarded to ADS for warranty repair. Units having more hours than designated, and more than one year since overhaul, may be forwarded to ADS for time continued repairs.

*Aero Distribution Services* will not be liable for any consequential charges, damages or for warranty on any assembly which has been misused, neglected or subjected to accident.
